3. Additions:

4. Unfinished Business:

A. Pillars

B. Historic District completion

C. Clean up the historic Catholic Church

D. Plans for 2018 – Digitizing historic Harrington (Ron Hall) – Ron Hall presented work he and his daughter have done in Google. They took all of the information from the historic Survey and Inventory and mapped all of the building on Google. The information is now available in a Fusion Table on the HHPC Google Drive. This can be edited with pictures, more information about each building, etc. This is a great asset to Harrington as it can be used for marketing, planning, grant writing and more!

E. Possible interviews of community members and historic maps

5. New Business:

A. Elections - No elections were held

B. Membership – After discussion about the difficulty of getting members and leadership on the commission, it was determined that the HHPC should take a one year hiatus. There are other committees making great headway and the attending HHPC members would like to support those efforts. Karen previously asked Kim Gant at DAHP about taking a year off because of lack of participation. She said our request would be fine and to let her know. Aileen moved that we take a hiatus until January 2019. Heather seconded the motion, the motion carried. Karen will notify the City of Harrington about the commission's hiatus.

6. Other business:

7. Adjournment:

Meeting adjourned at 7:40 pm

Next meeting will be determined in January 2019
